Australian owned and Australian made,
and has been for 30 years.

PARKLAND BBQS

Melbourne Barbecue Centre Pty Ltd has been producing our range of Parkland BBQs since 1980.

Over this time we have developed an extraordinarily strong, durable and low maintenance product that caters to that great Australian tradition—a barbecue with family and friends.

Available as a build-in or with a prefabricated cabinet, our BBQs can be purchased as gas or electric units and with either free push button ignition, coin-operated ignition or key-operated ignition.

We can also custom manufacture oversize cabinets or ask us about adding a sink to your cabinet.

**AUSTRALIAN MADE TO SUIT AUSTRALIAN
CONDITIONS.**

PARKLAND BBQS

Kingsize Electric Inbuilt BBQ

Model No: MBC5 & MBC6

- Stainless steel hotplate with cooking area of 680mm x 590mm
- Automatic timer will switch off after a set period of time (factory set to switch off after 13 minutes, adjustable)
- Green light to indicate BBQ is operating
- Available with coin operation (MBC5), free push button operation (MBC6) or key operation.
- Stainless steel doors with lock to hide controls
- Fully galvanised steel frame
- Impressive, practical and durable
- Ready for your brick or stone enclosure or available in a pre-fabricated cabinet
- 6KW elements (25Amps power) to provide a strong and constant heat
- Thermostat to control temperature settings

PARKLAND BBQS

Queensize Electric Inbuilt BBQ

Model No: RG1/3, RG2/3, RG1/6 & RG2/6

- Stainless steel hotplate with cooking area of 460mm x 460mm
- Automatic timer will switch off after a set period of time (factory set to switch off after 13 minutes, adjustable)
- Thermostatic controls
- Copper backing plate to increase heat conduction and retention
- Green light to indicate BBQ is operating
- Available with coin operation (RG1/3 & RG1/6), free push button operation (RG2/3 & RG2/6) or key operation.
- Stainless steel doors with lock to hide controls
- Fully galvanised steel frame
- 3.5KW elements (15Amps) standard, 6KW (24 Amps) available on request
- Weather proof
- Ready for your brick or stone enclosure or available in a pre-fabricated cabinet

PARKLAND BBQS

Deluxe Pedestal Electric BBQs

Deluxe Pedestal

Model No: DP1 and DP2

All the features of a Queensize BBQ set into a prefabricated pedestal base

- Queensize BBQ hotplate with cooking area of 460mm x 460mm.
- No need for brick or stone construction, simply pour a concrete slab and you are ready to go.
- Pedestal is constructed of hot-dipped galvanised steel and powdercoated.
- Stainless steel door
- Electric operation only.
- Coin operated (DP1) or push button operation (DP2)

Double Deluxe Pedestal

Model No: DP1ST and DP2ST

- 2 x Deluxe Pedestal BBQs surrounded by a large stainless steel benchtop (2000mm x 950mm) .
- Cooking area 460mm x 460mm per BBQ
- Stainless steel doors
- Electric operation only.
- Coin operated (DP1ST) or push button operation (DP2ST)

PARKLAND BBQS

The T-Pedestal Electric BBQ

Model Nos: TSP1, TSP2, TSP3, TSP4

- Queensize stainless steel hotplate with cooking area of 460mm x 460mm
- Stainless steel serving surround measuring 1000mm x 750mm. Ideal for food preparation, placing utensils and plates etc.
- Copper backing plate to generate high heat conduction and retention
- Galvanised and powder coated pedestal-style cladding to enclose the controls (TSP1/TSP2)
- Optional 304-grade stainless steel cladding (TSP3, TSP4)
- Stainless steel door
- Adjustable timer and thermostat
- Available with coin operation (TSP1/TSP3) or push button operated ignition (TSP2/TSP4)
- Electric operation only

PARKLAND BBQS

THE GREEN QUEEN 10AMP BBQ (new model)

Model No: GC 1/3 & GC2/3

Introducing the new 'Green Queen' BBQ, which has efficient 10Amp elements that draw less power than the traditional 15Amp or 25 Amp BBQs. Other features include:

- Stainless steel hotplate with cooking area of 460mm x 460mm
- 2200KW elements, which allow for greater heat production and retention than 1800KW elements but still operate using the standard 10Amp power supply.
- Copper backing plate to improve efficiency, heat conduction and heat retention.
- Automatic timer will switch off after a set period of time (factory set to switch off after 13 minutes)
- Thermostatic controls
- Green light to indicate BBQ is operating
- Available with coin operation (GC1/3), free push button operation (GC2/3) or key operation.
- Stainless steel doors with lock to hide controls
- Fully galvanised steel frame
- Weather proof
- Ready for your brick or stone enclosure or available in a pre-fabricated cabinet

Melbourne BBQ Centre has previously resisted making 10Amp BBQs, as the reduced amperage has a severe effect on heat production and retention and it is very important to ensure the plate gets hot enough to safely and hygienically cook meat.

However after rigorous testing, we have determined that elements that draw 2200W will provide enough temperature and yet will still only require a 10Amp power plug. We can use 1800W elements on request, but these are not recommended as they take too long to heat up, and the increased running time negates the energy saving of the reduced amperage.

PARKLAND BBQS

Kingsize Gas BBQ

Model No: MBC7 & MBC8

- Stainless steel hotplate with cooking area of 680mm x 590mm
- Automatic timer will switch off after a set period of time (factory set to switch off after 13 minutes, adjustable)
- Green light to indicate BBQ is operating
- Available with coin operation (MBC7) or free push button operation (MBC8)
- Stainless steel doors with lock to hide controls
- Fully galvanised steel frame
- Impressive, practical and durable
- Ready for your brick or stone enclosure or available in a pre-fabricated cabinet
- Microprocessor control system eliminates the need for a constant pilot light, therefore minimum gas wastage
- 2 x 15Mj/Hr Burners
- Available LPG or natural gas

PARKLAND BBQS

Single Cabinet BBQs

Save time and money and purchase your BBQ with a pre-fabricated single cabinet enclosure. Available with either galvanised and powdercoated cladding or stainless steel cladding.

Single Cabinet
with galvanised and
powdercoated cladding
(model shown SCPC6)

Pair the single cabinet with
either an electric Queensize
BBQ, electric Kingsize BBQ
or gas Kingsize BBQ.

All cabinets are provided
with 1 x stainless steel door.

For LPG gas BBQs we
recommend an extra door
for gas bottle storage.

Overall size of cabinet:
L1390mm x D750mm x
H900mm

Single Cabinet
with stainless steel
cladding (model shown SCSS23)

PARKLAND BBQS

Double Cabinet BBQs

Save time and money and purchase your BBQ with a pre-fabricated double cabinet enclosure. Available with either galvanised and powdercoated cladding or stainless steel cladding.

Double Cabinet
with galvanised
and powdercoated
cladding
(model shown DCPC23)

Pair the double cabinet with either 2 x electric Queensize BBQs, 2 x electric Kingsize BBQs or 2 x gas Kingsize BBQs. All cabinets are provided with 2 x stainless steel doors. For LPG gas BBQs we recommend an extra door for gas bottle storage. Overall size of cabinet: L2090mm x D750mm x H900mm

Double Cabinet
with stainless steel
cladding
(Model shown DCSS6)

Custom Made BBQs

A benefit of buying direct from the manufacturer is that we have the ability to custom-make cabinets to suit your installation.

A common change is the colour of the BBQ cabinet, we use the Dulux Colourbond colours and can have the BBQ powdercoated to suit your colour scheme.

We can also add extra BBQs or a sink to your cabinet.
